

# "You Choose"

Whitney from
VMWare partnered
with Viktor Farcic,
who's behind DevOps
ToolKit, with a
community-engaging
project called "You
Choose."

This project is a 'Choose-Your-Own-Adventure' -style journey through the CNCF landscape, and each show represents one decision that needs to be made to move an application toward production.

The Adventure Begins (You Choose! Ch. 1, Ep. 0)

DevOps Toolkit • 2.9K views • 3 months ago

Build Container Image - Feat. Carvel kbld, Buildpacks, and Lima (You Build Container Image
CONTRINER
Choose!, Ch. 1, Ep. 1)

DevOps Toolkit • 2.8K views • Streamed 3 months ago

Store Image in a Registry - Feat. Harbor, Docker Hub, and Dragonfly (You Choose!, Ch. 1, Ep. 2)

DevOps Toolkit · 2.3K views · Streamed 2 months ago

Define And Deploy Apps - Feat. Helm, Kustomize, Carvel ytt, and cdk8s (You Choose!, Ch. 1, Ep. 3)

DevOps Toolkit • 2.2K views • Streamed 2 months ago

Use HTTPS - Feat. cert-manager (You Choose!, Ch. 1, Ep. 4)

DevOps Toolkit • 1.4K views • Streamed 2 months ago

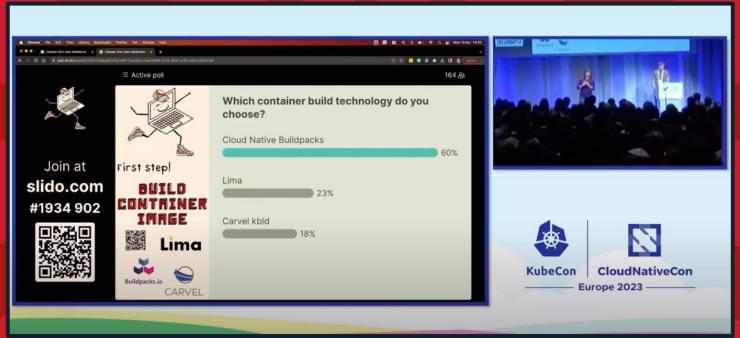

Setup PostgreSQL DB In The Dev Environment - Feat. Helm And Crossplane (You Choose!, Ch. 1, Ep. 5)

DevOps Toolkit • 1.4K views • Streamed 2 months ago

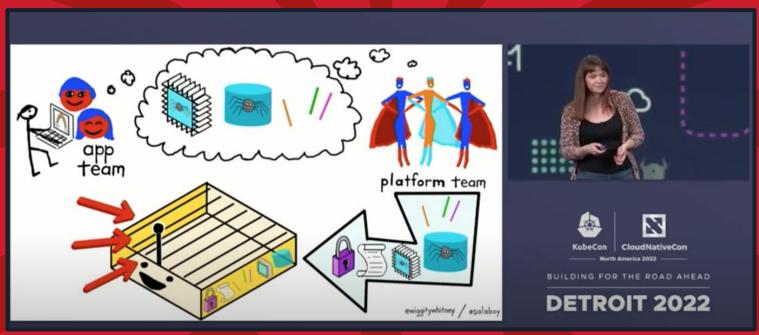

#### Kubecon EU 2023

### The Creative Approach to Technology

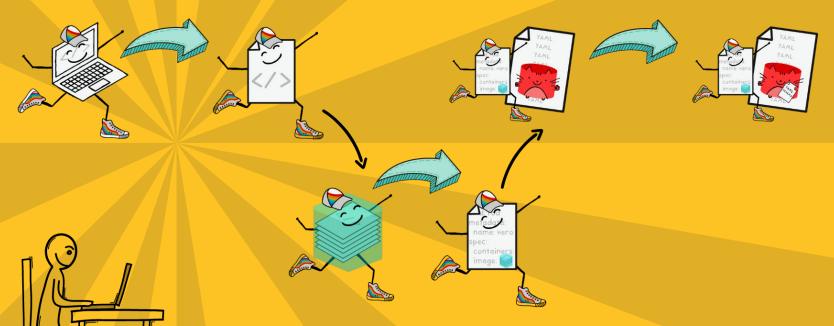

#### The Hero!

Who is this hero and how does the community guide it to production?

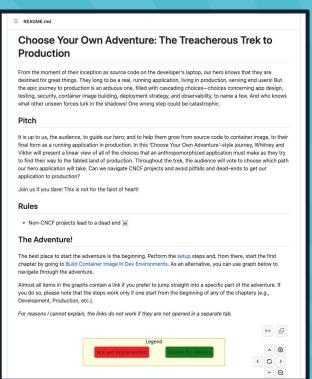

## The Hero's Journey

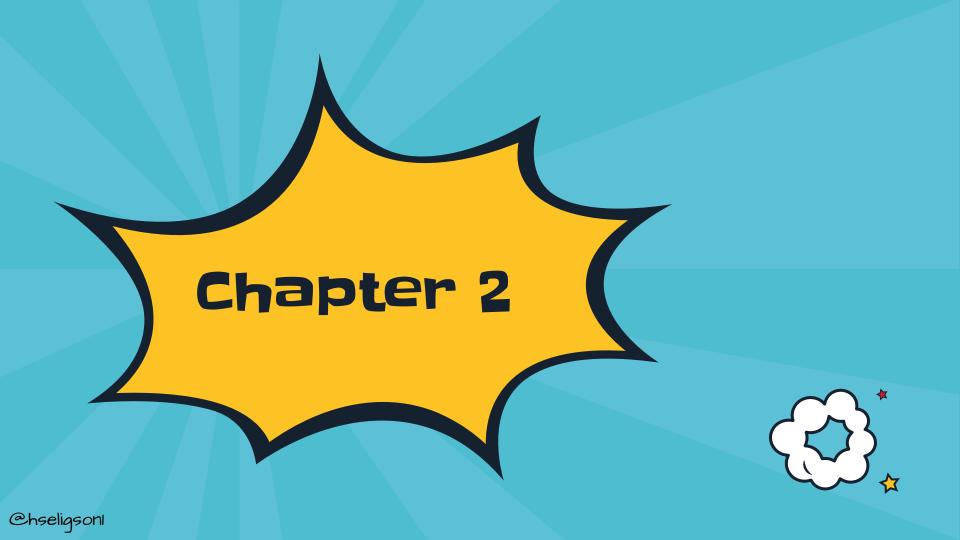

Our hero running in the development environment, connected to Lil DeeBee and able to be further developed in a Kubernetes-native way!
